HP offerings for the State of Indiana

QPA Contract 13079

Optimize budgets and improve IT efficiency

As a state agency in Indiana you have a mandate to reduce inefficiency, eliminate waste and lower costs. You must do more with less, and without compromising security or effectiveness. HP can help.

Why HP

As a long-standing and trusted advisor to government organizations around the world, HP has the insight, experience, and resources to help your agency achieve its technology goals. From HP desktop PCs, to workstations, to mobile technologies, to award winning printers, HP the standard for innovation, performance and reliability. That's why governments worldwide and the State of Indiana choose HP technology.

HP desktops, notebooks, tablets and workstations

HP desktop PCs

The HP Compaq Elite 8300 family offers three desktop chassis and long, stable lifecycles with planned transitions. The HP Compaq Elite 8300 provides high performance, easy serviceability, advanced manageability, and security features and comes standard with HP Product Change Notification to keep IT concerns down and productivity high.

HP notebooks

Whether it's security, ease-of-use, performance, or connectivity, you will appreciate the options available for the HP ProBook b-series notebooks. They can boost security and simplify access to the notebook with the optional Smart Card Reader[1] or keep data secure with the optional HP Fingerprint Reader.[1]
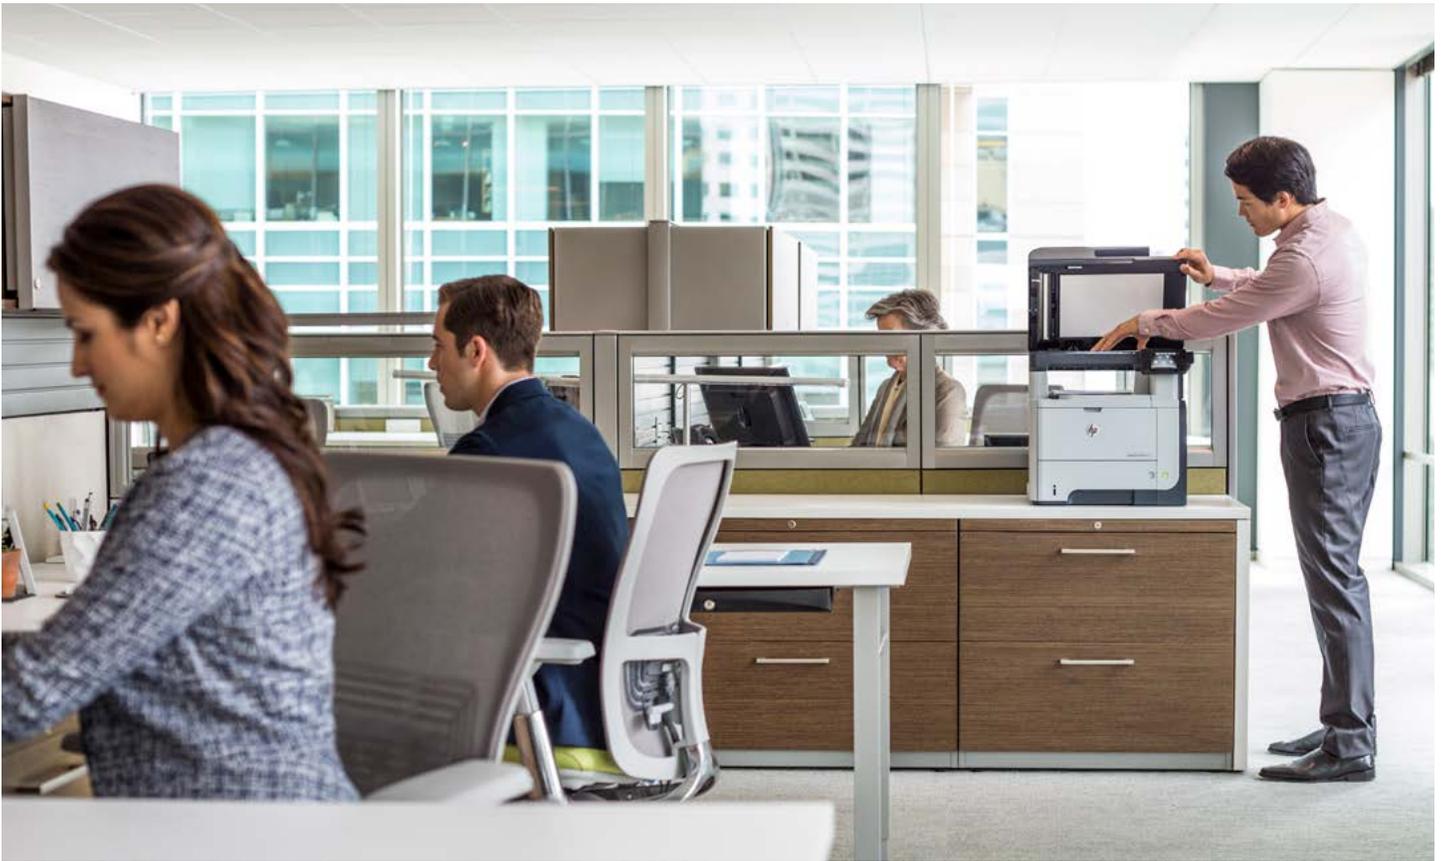

HP tablets

Go beyond average with the HP ElitePad, our premium thin and light Windows 8 tablet.[2,3] Its elegant design and touch experience puts productivity at your fingertips. Expand your potential by choosing from a complete suite of thoughtfully designed accessories like a full keyboard, docking station, and smart jackets for extra productivity and battery life. Easy to deploy. Effortless to manage. Simple to secure.

HP workstations

Workstations are designed to meet the unyielding demands of today's agencies and technical workplaces. If you work with large and complex datasets or intricate 3D models, HP workstations deliver the performance you need. If you run mission-critical applications, HP workstations give you uncompromised reliability. Or if you need room to grow, HP workstations offer wide-ranging scalability choices. Our intense focus on innovation, performance, and reliability has kept HP at the forefront of the workstation industry.

HP printers

Equip your agency with printers from the premier printing company in the world. In today's environment, everyone needs to reduce costs and improve productivity. HP understands that your agency is challenged to do more with less and to help make every budget dollar count. HP is here to help with products and solutions designed to help reduce costs, improve work-flow, and increase the security of your imaging and printing environment.

Black-and-white LaserJet printers
HP LaserJet printers have a 30-year history of innovation, including mobility and security features that allow your agency to work harder, print faster, and help save more.

Color LaserJet printers
With HP color access control features, you can introduce color printing worry free.

Officejet Pro X series
Officejet Pro X series continues HP's commitment to improve the sustainability of office printing. HP Officejet Pro X series printers and MFPs use up to 50% less energy[4] and use up to 50% less cartridge and packaging material by weight[5] compared to color laser printers. Automatic two-sided printing on every model creates an opportunity to save paper. And, Officejet Pro X printers meet some of the most rigorous eco-labeling requirements in the world. In addition, the HP Officejet Pro X series offers major improvements in speed and cost per page.

---

1. Sold separately or as an optional feature.
2. Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See http://www.microsoft.com.
3. This system is Windows 8 certified and supports the new Windows UI. The integrated display resolution is below the threshold for Snap, a Windows UI feature that allows two Windows Store apps to be viewed simultaneously. This feature may be enabled by attaching an external 1366 x 768 or higher resolution display. Not all features are available in all editions of Windows 8. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8 functionality. See http://www.microsoft.com/
4. Comparison based on manufacturers published specifications of fastest available color mode (as of August 2013) and includes color laser MFPs <$1000 USD and color laser printers <$800 USD available August 2013 based on market share as reported by IDC as of Q2 2013 and HP internal testing of printer in fastest available color mode (sample 4-page category documents tested from ISO 24734). For more information, see: www.hp.com/go/printerclaims.
5. Cost per page (CPP) claim is based on the majority of color laser MFPs <$1000 USD and color laser printers <$800 USD as of August 2013, ISO yield based on continuous printing in default mode based on market share as reported by IDC as of Q2 2013. CPP comparisons for laser supplies are based on published specifications of the manufacturers' highest capacity cartridges. CPP based on HP 970XL/971XL ink cartridges estimated street price. For more information, see: www.hp.com/go/learnaboutsupplies.
